

# THE FLU AND ADULTS 50+

## NOT GETTING VACCINATED COULD BE A GRAVE DECISION

A RECENT STUDY SHOWED THAT THE RATE OF  
**HEART ATTACKS**  
**INCREASED 10X**  
1-3 days after flu infection

IN THE 2017-2018 FLU SEASON, AN ESTIMATED  
**3,400 ADULTS**  
**50+**  
WERE HOSPITALIZED EVERY DAY

AND BASED ON CDC ESTIMATES, ON AVERAGE

**312 ADULTS 50+**  
**DIED EVERY DAY**

FROM THE FLU AND FLU-RELATED COMPLICATIONS

### ASK ABOUT THE VACCINE THAT'S RIGHT FOR YOU
